

CDI indexes

CDI SUBJECT INDEX, 2007

A

ACIR

See: Childhood immunisation coverage

Acquired immunodeficiency disease syndrome

See HIV and AIDS

Acute flaccid paralysis

See: Poliomyelitis

Adverse events following immunisation

annual report, 2006; 269–282

supplementary report: 1 January to 30 June 2007;
379–382

AIDS

See: HIV and AIDS

Annual report

See: Individual surveillance programs

Anthrax

See: Communicable diseases surveillance: tables

Antimicrobial resistance

prevalence of antimicrobial resistance in *Enterococcus*
isolates in Australia, 2005; 392–397

prevalence of antimicrobial resistances in
common pathogenic Enterobacteriaceae in
Australia, 2004: report from the Australian Group
on Antimicrobial Resistance; 106–112

prevalence of MRSA among *Staphylococcus aureus*
isolated from hospital inpatients, 2005: Report
from the Australian Group for Antimicrobial
Resistance; 288–296

Arbovirus infection

*See: Barmah Forest virus infection; Japanese
encephalitis virus; Kunjin virus infection; malaria;
Murray Valley encephalitis virus*

ASPREN

See: Australian Sentinel Practice Research Network

AusReady

new facility to help fight emerging infectious
diseases; 343

Australia's notifiable diseases status, 2005:
annual report of the National Notifiable Diseases
Surveillance System; 1–70

Australian bat lyssavirus

See: Rabies

Australian Childhood Immunisation Register

See: Childhood immunisation coverage

Australian encephalitis

*See: National Arbovirus and Malaria Advisory
Committee*

Australian Gonococcal Surveillance Programme

annual report, 2006; 180–184

quarterly surveillance report; 149–151, 439–440

surveillance data in *CDI* explanation; 162

See also: Gonococcal infection

Australian Meningococcal Surveillance Programme

quarterly surveillance report; 162, 254, 336, 441

See also: Meningococcal infection

Australian Mycobacterium Reference Laboratory
Network

See: Tuberculosis

Australian National Creutzfeldt-Jakob Disease
Registry

See: Creutzfeldt-Jakob disease

Australian National Poliovirus Reference Laboratory

See: Poliomyelitis

Australian Paediatric Surveillance Unit

surveillance data in *CDI* explanation; 163

Australian Rotavirus Surveillance Program

annual report, 2006–07; 375–379

See also: Rotavirus

Australian Sentinel Practice Research Network

quarterly surveillance report; 147, 330–331,
436–437

surveillance data in *CDI* explanation; 160–161

Avian influenza

overseas brief; 154, 257, 339, 445

See also: Influenza

B

- Barmah Forest virus infection
See: Communicable diseases surveillance: tables
- BCG
See: Tuberculosis
- Bird flu
See: Avian influenza
- Bloodborne diseases
See: Communicable diseases surveillance: tables;
See also: Hepatitis B; hepatitis C; hepatitis D; HIV and AIDS
- Botulism
See: Communicable diseases surveillance: tables
- Bovine spongiform encephalopathy
See: Creutzfeldt-Jakob disease
- Brucellosis
See: Communicable diseases surveillance: tables

C

- Campylobacter
See: Campylobacteriosis
- Campylobacteriosis
See: Communicable diseases surveillance: tables
- Chickenpox
See: Varicella
- Chikungunya
 overseas brief; 154, 257, 444
- Childhood immunisation coverage
 how reliable are Australian Childhood Immunisation Register coverage estimates for Indigenous children? An assessment of data quality and coverage; 283–287
 quarterly surveillance report; 147–149, 251–252, 333–334, 437–439
 surveillance data in *CDI* explanation; 163–164
- Chlamydia*
See: Chlamydial infection
- Chlamydial infection
See: Communicable diseases surveillance: tables
- Cholera
 overseas brief; 154–155, 257, 444
See also: Communicable diseases surveillance: tables

- Communicable Diseases Intelligence*
 change of contact details; 447
 errata; 164–165, 262, 448
 instructions for authors; 157–159
 letter to the Editor; 419
 surveillance systems reported in, 2007; 159–164
- Communicable diseases surveillance
 highlights for 4th quarter, 2006; 134–137
 highlights for 1st quarter, 2007; 240–241
 highlights for 2nd quarter, 2007; 319–320
 highlights for 3rd quarter, 2007; 425–426
 surveillance systems reported in, 2007; 159–164
 tables; 138–146, 242–264, 321–329, 427–435
See also: Individual diseases
- Compliance with three simultaneous vaccinations due at the one visit at 12 months of age in Australia; 198–202
- Composition of the Australian Influenza Vaccine for the 2007 season; 260
- Creutzfeldt-Jakob disease: Australian surveillance update to March 2007; 194–197
- Cryptosporidiosis
See: Communicable diseases surveillance: tables

D

- Dengue
 overseas brief; 155, 257, 339–340, 444–445
See also: Communicable diseases surveillance: tables
- Dengue haemorrhagic fever
 overseas brief; 155
- Diphtheria
See: Communicable diseases surveillance: tables

E

- Ebola haemorrhagic fever
 overseas brief; 445
- Emerging infectious diseases
 AusReady: new facility to help fight emerging infectious diseases; 343
- Encephalitis: Australian
See: National Arbovirus and Malaria Advisory Committee
- Enterococcus
 prevalence of antimicrobial resistance in *Enterococcus* isolates in Australia, 2005; 392–397

Enteroviruses

See: Poliomyelitis

Escherichia coli

See: Shiga-like toxin producing Escherichia coli/verotoxin producing E. coli

Haemolytic uraemic syndrome associated with a family cluster of enterohaemorrhagic *Escherichia coli*; 300–303

Exercise Paton: A simulation exercise to test New South Wales emergency departments' response to pandemic influenza; 310–313

F

Flavivirus

See: Sentinel Chicken Surveillance Program
See also: Dengue; Japanese encephalitis virus; Kunjin virus infection; Murray Valley encephalitis virus

Foodborne disease

See: OzFoodNet;
See also: Communicable diseases surveillance: tables; salmonellosis

G

Gastroenteritis

See: Gastrointestinal diseases

Gastrointestinal diseases

See: Botulism; campylobacteriosis; Communicable diseases surveillance: tables; cryptosporidiosis; haemolytic uraemic syndrome; hepatitis A; hepatitis E; listeriosis; salmonellosis; Shiga-like toxin producing Escherichia coli/verotoxin producing E. coli; typhoid

Gonococcal infection

quarterly surveillance report; 331–332, 439–440

See also: Communicable diseases surveillance: tables

Gonorrhoea

See: Gonococcal infection

H

Haemolytic uraemic syndrome

associated with a family cluster of enterohaemorrhagic *Escherichia coli*; 300–303

See also: Communicable diseases surveillance: tables

Haemophilus influenzae type b

See: Communicable diseases surveillance: tables

Haemorrhagic fever

See: Viral haemorrhagic fever

Hepatitis A

See: Communicable diseases surveillance: tables

Hepatitis B

See: Communicable diseases surveillance: tables

Hepatitis C

See: Communicable diseases surveillance: tables

Hepatitis D

See: Communicable diseases surveillance: tables

Hepatitis E

See: Communicable diseases surveillance: tables

HIV

See Human immunodeficiency virus

HIV and AIDS

quarterly surveillance reports; 153–154, 253, 334
 surveillance data in *CDI* explanation; 161

Human immunodeficiency virus

overseas brief; 257–258

Human pituitary hormone

See: Creutzfeldt-Jakob disease

I

Immunisation

See: vaccination

See also: Childhood immunisation coverage

Importation of wild poliovirus into Australia, July 2007; 299

Influenza

ASPREN data

See: Australian Sentinel Practice Research Network

Exercise Paton: A simulation exercise to test New South Wales emergency departments' response to pandemic influenza; 310–313

observations on managing an outbreak of influenza A infection in an aged care facility; 410–412

pneumonia cluster in a boarding school – implications for influenza control; 296–298

surveillance in Victoria, annual report 2006; 100–106

surveillance within hospitals: what is the world doing?; 413–418

See also: Communicable diseases surveillance: tables, National Influenza Surveillance Scheme

Interferon- γ release immunoassays in the detection of latent tuberculosis infection, NTAC position paper, October 2007; 404–405

Invasive meningococcal infections

See: Meningococcal infection

See also: Communicable diseases surveillance: tables;

Invasive pneumococcal disease

See: Pneumococcal disease

See also: Communicable diseases surveillance: tables;

Invasive pneumococcal disease in Australia

annual report 2005; 86–100

J

Japanese encephalitis virus

See: Communicable diseases surveillance: tables

K

Kunjin virus infection

See: Communicable diseases surveillance: tables

L

Laboratory Virology and Serology Reporting Scheme surveillance data in *CDI* explanation; 162–163

tables; 144–146, 327–329, 433–435

LabWISE

See: Laboratory Virology and Serology Reporting Scheme

Legionellosis

See: Communicable diseases surveillance: tables

Leprosy

See: Communicable diseases surveillance: tables

Leptospirosis

Epidemiology of *Leptospira weilii* serovar Topaz infections in Australia; 216–222

See also: Communicable diseases surveillance: tables

Listeriosis

See: Communicable diseases surveillance: tables

Lyssavirus

See: Rabies

M

Malaria

overseas brief; 155

See also: Communicable diseases surveillance: tables

Marburg haemorrhagic fever

overseas brief; 445–446

Measles

overseas brief; 258, 340

See also: Communicable diseases surveillance: tables

Meningococcal infection

annual report of the Australian Meningococcal Surveillance Programme, 2006; 185–194

overseas brief; 155, 258

public health management of increased incidence of meningococcal disease in the Australian Capital Territory: 2003 to 2004; 112–118

quarterly surveillance report; 162, 254, 336, 441

reduction in invasive meningococcal disease in Queensland: A success for immunisation; 227–232

septicaemia and a case of clinically mild illness; 232–233

See also: Communicable diseases surveillance: tables

Methicillin-resistant *Staphylococcus aureus*

overseas brief; 155

Mumps

overseas brief; 258

See also: Communicable diseases surveillance: tables

Murray Valley encephalitis virus

See: Communicable diseases surveillance: tables

Mycobacterium

See: Tuberculosis

N

National Centre in HIV Epidemiology and Clinical Research

See: HIV and AIDS

National Enteric Pathogens Surveillance System

quarterly surveillance report; 151–153, 254–256, 337–338, 442–443

surveillance data in *CDI* explanation; 163

National Influenza Surveillance Scheme

annual report, 2006; 167–179

surveillance data in *CDI* explanation; 161

See also: Influenza

National Mycobacterial Surveillance Scheme

See: Tuberculosis

National Notifiable Diseases Surveillance System
 annual report, 2005; 1–70
 highlights for 4th quarter, 2006; 134–137
 highlights for 1st quarter, 2007; 240–241
 highlights for 2nd quarter, 2007; 319–320
 highlights for 3rd quarter, 2007; 425–426
 surveillance data in *CDI* explanation; 160
 tables; 138–143, 242–247, 321–326, 427–432

National Serology Reference Laboratory, Australia, workshop; 261

National Tuberculosis Advisory Committee
 multi-drug resistant tuberculosis: Information Paper (October 2007); 406–409
 Position statement on interferon- γ release immunoassays in the detection of latent tuberculosis infection, October 2007; 404–405
See also: Malaria

Neisseria gonorrhoeae
See: Gonococcal infection

Neisseria meningitidis
See: Meningococcal infection

Nipah virus
 overseas brief; 340–341

Norwalk virus
See: Norovirus

Notifiable diseases
See: Communicable diseases surveillance;
See also: National Notifiable Diseases Surveillance System

O

Ornithosis
See also: Communicable diseases surveillance: tables

Overseas briefs; 154–156, 257–259, 339–342, 444–447

OzFoodNet
 annual report, 2006; 345–365
 quarterly surveillance report
 1 October to 31 December 2006; 128–133
 1 January to 31 March 2007; 234–239
 1 April to 30 June 2007; 314–318
 1 July to 30 September 2007; 420–424
 surveillance data in *CDI* explanation; 164

P

Pandemic Influenza
Exercise Paton: A simulation exercise to test New South Wales emergency departments' response to pandemic influenza; 310–313

Pertussis
Bordetella pertussis PCR positivity, following onset of illness in children under 5 years of age; 202–205
 epidemiology in Australia over the decade 1995–2005 – trends by region and age group; 205–213
 epidemiology of pertussis in the Australian Capital Territory, 1999 to 2005—epidemics of testing, disease or false positives?; 383–391
See also: Communicable diseases surveillance: tables

Plague
See also: Communicable diseases surveillance: tables

Plasmodium spp.
See: Malaria

Pneumococcal disease
 annual report 2005; 86–100
See also: Communicable diseases surveillance: tables

Pneumonia cluster in a boarding school – implications for influenza control; 296–298

Poliomyelitis
 Australian National Poliovirus Reference Laboratory
 annual report, 2006; 263–269
 importation of wild poliovirus into Australia, July 2007; 299
 overseas brief; 155–156, 258–259, 341, 446
See also: Communicable diseases surveillance: tables

Professor Aileen Plant, a celebration of the life of; 260

Public health management of increased incidence of meningococcal disease in the Australian Capital Territory: 2003 to 2004; 112–118

Q

Q fever
 cases in the Northern Territory of Australia from 1991 to 2006; 222–227
See also: Communicable diseases surveillance: tables

Quarantinable diseases
See: Cholera; plague; rabies; smallpox; tularemia; viral haemorrhagic fever; yellow fever
See also: Communicable diseases surveillance: tables;

R

Rabies

See: Communicable diseases surveillance: tables

Rift Valley fever

overseas brief; 156, 259

Ross River virus infection

See: Communicable diseases surveillance: tables

Rotavirus

annual report, 2006-07; 375-379

Rubella

See: Communicable diseases surveillance: tables

S

Salmonella

See: Salmonellosis

Salmonellosis

large outbreaks of *Salmonella* Typhimurium phage type 135 infections associated with the consumption of products containing raw egg in Tasmania; 118-124

See also: Communicable diseases surveillance: tables

SARS

See: Severe acute respiratory syndrome

Sentinel Chicken Surveillance Program

surveillance data in *CDI* explanation; 161-162

Serology

See: Laboratory Virology and Serology Reporting Scheme

Sexually transmissible infections

See: Chlamydial infection; gonococcal infection; syphilis

See also: Communicable diseases surveillance: tables

Shigellosis

See: Communicable diseases surveillance: tables

SLTEC

See: Shiga-like toxin producing Escherichia coli/verotoxin producing E. coli

Smallpox

See: Communicable diseases surveillance: tables

Staphylococcus aureus

epidemiology and outcomes for *Staphylococcus aureus* bacteraemia in Australian hospitals, 2005-06; 398-404

overseas brief; 155

prevalence of MRSA among *Staphylococcus aureus* isolated from hospital inpatients, 2005: Report from the Australian Group for Antimicrobial Resistance; 288-296

Surveillance

adverse events following immunisation among children aged less than seven years in Australia, 1 January to 30 June 2007; 379-382

report for active trachoma, 2006; 366-374

systems reported in *CDI*, 2007; 159-164

See: Communicable diseases surveillance

Surveillance reports

See: Communicable diseases surveillance

Syphilis

See: Communicable diseases surveillance: tables
in remote north Queensland; 125-127

T

Tetanus

See: Communicable diseases surveillance: tables

Trachoma

surveillance report for active trachoma, 2006; 366-374

Transmissible spongiform encephalopathies

See: Creutzfeldt-Jakob disease

Tuberculosis

bacteriologically confirmed cases and drug resistance, annual report 2005; 80-86

National Tuberculosis Advisory Committee multi-drug resistant tuberculosis: Information Paper (October 2007); 406-409

notifications in Australia, annual report 2005; 71-80

overseas brief; 341-342

position statement on interferon- γ release immunoassays in the detection of latent tuberculosis infection, October 2007; 404-405

See also: Communicable diseases surveillance: tables

Tularemia

See: Communicable diseases surveillance: tables

Typhoid

See: Communicable diseases surveillance: tables

V

Vaccination

compliance with three simultaneous vaccinations due at the one visit at 12 months of age in Australia; 198–202

reduction in invasive meningococcal disease in Queensland: A success for immunisation; 227–232

See: Childhood immunisation coverage

Vaccine preventable diseases

and Vaccination Coverage in Australia, 2003 to 2005 - supplement; S1–S152

See also: Communicable diseases surveillance: tables; See also: Diphtheria; Haemophilus influenzae type b; influenza; measles, mumps, pertussis; pneumococcal disease; poliomyelitis; rubella; tetanus

Varicella

Current developments in varicella-zoster virus disease prevention; 303–310

Vectorborne diseases

See: Barmah Forest virus infection; dengue; flavivirus; Japanese encephalitis virus; Kunjin virus infection; malaria; Murray Valley encephalitis virus; Ross River virus infection

See also: Communicable diseases surveillance: tables;

Viral haemorrhagic fever

See: Communicable diseases surveillance: tables

Virology and Serology Laboratory Reporting Scheme

See: Laboratory Virology and Serology Reporting Scheme

VTEC

See: Shiga-like toxin producing Escherichia coli/ verotoxin producing E. coli

W

West Nile fever

overseas brief; 446

Y

Yellow fever

overseas brief; 156

See also: Communicable diseases surveillance: tables

Z

Zoonoses

See: Anthrax, Australian bat lyssavirus, brucellosis, leptospirosis, ornithosis, Q fever

See also: Communicable diseases surveillance: tables;
